## About the course:

## “At-Scene Accident Investigation”

“what took place and who is to blame...”

A motor vehicle accident can occur in seconds. Scattered amidst the wreckage and debris are the key elements as to how and why the crash took place. The physical evidence, witness statements and vehicle damage can be difficult to interpret.

The purpose of this five day training program is to teach the uniformed patrol officer how to competently investigate motor vehicle accidents in a professional manner. The officer will be instructed on the basic principles necessary to complete the accident investigation. Upon completion of this course, the officer will be prepared to advance to the two-week technical accident investigation course to enhance their skills and knowledge in conducting “thorough” investigations.

## About the topics:
