

About the course:

“Public Records Law and Records Retention”

About the instructors

There have been numerous changes to Ohio's Public Records Laws over the past several years. The Ohio Public Records Act evolved from the principle that Ohio's citizens are entitled to access the records of their government. To advance that principle, the Public

Records Act is to be interpreted liberally in favor of disclosure. This seminar will address the Public Records Law and Record Retention issues. A review of what is a public record will be conducted. In addition, the exceptions to the Public Records Law will be discussed and reviewed. Finally, records management and records retention issues will be reviewed.
