### Conducting Employment Background Investigations”

Employment background investigations are some of the most important investigations undertaken by a law enforcement agency. They directly affect which applicants are or are not accepted as members of the agency, and as a result, may directly influence the future success of the agency. The purpose of this 2 day seminar is to educate the student on the employee hiring process and how the employment background investigation fits into that process. The importance of conducting thorough and complete background investigations will be reviewed. In addition, the steps to accomplish that task will be detailed. Finally, ethics issues related to the employment process will be reviewed.
